No. 2161—Eighth Year. BUENOS AYRES, FRIDAY, APRIL 30, 1869. Circulation 3000

MAUA BANK,
101—103 CALLE CANGALLO

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank :—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of checques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brasils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 10 a.m. till 3 p.m.

Mons. LOUDET,

Begs to inform the Public of Buenos Ayres and the Argentine Republic, that he continues to take Photographs for the Carte de Visite, full length, and in every other style.

Mons. Loudet visited the Great Exhibition of Paris in 1867, in order to make himself, thoroughly and practically acquainted with every improvement in the above important art; and, since his return from Europe, he has placed his Establishment on precisely the same footing as those of the first Photographers in Paris, London, and the principal cities of Europe. The Apparatus, has been selected from the most approved of these in the Paris Exhibition, several of the inventions having received Prize Medals, among which may be mentioned those of Dallmeyer, of Loudon, &c.

Voigtlander e Sohn. The saloons [in which may be included the Atelier] are handsomely furnished and commodious.

Mons. LOUDET feels the most perfect confidence in saying he can produce likenesses in every aspect, infinitely superior to those which have already met with such unbounded approbation from the distinguished Public of Buenos Ayres.

The Public are respectfully invited to inspect the Gallery. 98,f16

A Great Sensation! A Good Sensation!

Important Truths for Thinking Men and Women.

Pain cured in an instant!

LET RADWAY'S READY RELIEF

Be used on the first occasion of pain or uneasiness; if threatened with disease or sickness, the cure will be made before the family doctor would ordinarily reach the house.

Hundreds of families, who for 25 years have used the Ready Relief, have had no occasion for he services of a doctor.

Every kind of Pain, Ache, Cramp, Spasm, whether from injuries, accidents, poisoning, or from disease that may exist in the inside or outside of man, woman, or child, is instantly stopped, and the cause (if disease) quickly removed by Radway's Ready Relief.

People who for a quarter of a century have used it, and cured themselves of all kinds of pains, aches, and infirmities, know but very little of its truly great power in the more dangerous diseases. In all cases where an external embrocation or liniment is required, or where there is pain, inflammation, congestion—or where there is a disturbance inwardly, such as cramps, spasms, diarrhœa, sickness at stomach, headache, and other simple aliments, they know very well that the Ready Relief will remove all these difficulties in a few seconds, but that the more fatal diseases, such as Small Pox, Yellow Fever, Asiatic Cholera, Typhoid Fever, and the class of diseases that terminate fatally in a few hours, they know little that in Radway's Ready Relief they have a life-preserver that will cure them and protect them against attacks of these fatal diseases, and yet this is true, and it is the only remedial agent in existence that will absolutely cure and prevent these diseases.

The solution of this great medical problem is plain and simple, for in the Ready Relief we have a counter-irritant; a disinfectant; a diffusive stimulant; an antiacid; a diaphnretic; an antispasmodic; a rubefacient; an antisesptic; a sudorific; an anodyne; a nervine; and tonic. Each of the properties are so harmoniously combined and associated, that each perform with singular and marvellous rapidity independent duty, and each, as a part, assists the other; and when the symptoms of disease indicate their united influence, the Ready Relief instantly supplies this important requisite.

In Asiatic Cholera—(and the same properties are called for in Yellow Fever, and other malignant malarias)—an Anodyne is called for to assuage the pain, stop the vomiting and purging; a Disinfectant, to kill, destroy or neutralize the poison or acid of cholera; an Anti-Spasmodic, to allay the spasms and cramps, vomiting and purging; Anti-Septic to prevent mortification and to purify the gases of the stomach; Diffusive stimulant, to impart warmth throughout the chilled and cold body—and arouse the paralized organs, the functions of which have been stopped, and to start the congested blood in circulation; Counter-Irritant to withdraw inflammation from the engorged bood vessels and congested nerves, and impart to the nervous system a new supply of electricity, a Diaphreutic, to arouse the sluggish vessels of the skin in the secretion and promotion of perspiration; these indications being accomplished, a cure is effected, and in ninety-nine times out of a hundred, the most violent cases of Asiatic Cholera are cured by the simple use of Radway's Ready Relief.

This same principle secures the same happy results, in all other diseases and ailments, either applied externally or taken internally.

In Congestion of the Lungs, Inflammation of the Bowels, Bilious Cholic, Neuralgia, Rheumatism, Inflammation of the Bladder and Kidneys—in fact, in all forms of disease where there is pain, the Ready Relief will in a "few minutes" stop the most excruciating and agonizing paroxysms. To be sure in many of these diseases, after the pain is cured or removed, the Radway Pills should be taken to restore functional harmony, and empty the bowels and keep the bowels regular.

" " Francisco Bustamante.
" " Manuel S. de Zumaran.
" " Henry N. Hart.
Director-General:
Don Francisco F. Moreno.
Inspector
Guillermo Schnidber.

The Company Insures against Fire on very small Premiums. Every class of Buildings and Goods, whether private or industrial.

Goods in Customs Deposit may be likewise Insured.

Insurers in this Company contract no other obligation than the payment of the stipulated Premium on the Policies, the Company being only responsible for such injuries as they may suffer from Fire.

Among the general conditions of the Policy, there is one of particular advantage to Mortgage Creditors.

The Company offers the following Rewards:—
$f.40 To the first Hose ready to lend assistance.
$f.20 To the second do. do.
$f.20 To the first pipe of water.
$f.4 To each of the five succeeding pipes
Which run to the Fire of any Edifice or Property Insured in THE ESTRELLA, on making known his choice of the Reward, or a Certificate issued by the Police authorities to such as shall have assisted at the mishap.

The Company will also give a Reward of $f.4 to whoever shall present themselves at their Office, to give Notice of any Fire within the Municipal Policies Issued, and all further particulars to be had, at the Head Office, No. 118, PIEDAD; or at any of the Country Agents.

MARITIME DEPARTMENT.

By virtue of Decrees of the 2d of April and 9th of June last, of both Provincial and National Governments, and also having been duly registered in the Public Archives, this Company has been authorised to issue Maritime Policies, in accordance with the laws and regulations, in such case made and provided.

It being an admitted fact, that "Money makes money," the object of LA BIENHECHORA could not be better, since it opens a vast Savings Bank for the surplus or savings of the Public, so that, by the proper employment of these small gains, a moderate capital, or even annuity, may be secured in a short time. By this means a provident, though helpless, family can husband their small means, and, in the end, attain a competency.

It being proved that the accumulation of interest is the most powerful means of augmenting the capital, THE BIENHECHORA DEL PLATA—an Argentine Company, whose only investments are in the country—holds out to Subscribers greater advantages than any other Institution, by reason of all its dealings being in the River Plate, where are current as large interests as in any part of the world.

THE BIENHECHORA DEL PLATA receives Deposits of from Five Patacones per Annum up to any amount in Weekly, Monthly, or Yearly Instalments.

☞ Subscribers enrolled and all necessary information given at the Head Offices of the Company, 118, Calle Piedad, Buenos Ayres.

AUNIS' MAILS.

LATEST FROM EUROPE.

The London papers are full of the debate on the second reading of the Irish Church Bill. The speeches on both sides continued to merit great praise as efforts of forensic talent, but the voice of the House of Commons has emphatically declared itself for the abolition of the so-called Irish Church, and the expected majority is put down at 130 members. Another matter which now intrudes itself on public notice is the sale of the Hudson's Bay territory. The Colonial Secretary has offered the Company the sum of £300,000, with the intention of their handing over the territory to the dominion of Canada. It is said that the shareholders are dissatisfied with this offer, and have entered into negotiations for selling the territory to the United States.

Admiral Grenfell died at Liverpool in his 74th year. He began life under Lord Cochrane in Chile, and afterwards served for many years in the Brazilian Navy. In 1846 he was named Brazilian Consul-General at Liverpool.

The Nawaub of Bengal, accompanied by his two sons, arrived at Marseilles, 'en route' for England.

The released Fenians continue to make inflammatory speeches in Ireland, on which account the "Times" severely censures the Government for misplaced lenity. At a banquet in Cork on Saint Patrick's Day, presided over by the Mayor, Colonel Warren advocated the sword as 'the only remedy,' whereupon the Mayor urged rather that all patriotic Irishmen should side with Mr. Gladstone.

The Paris journals mention that the Emperor has recovered from an attack of influenza. The question with Belgium respecting the Luxembourg Railway is settled, both countries having agreed to leave it to be adjusted by a mixed Franco-Belgian committee. The Emperor has made several handsome presents to ex-Queen Isabella. His Majesty is in treaty to purchase Monsceaux, the estate of Lamartine, which is already mortgaged to the amount of £50,000 sterling. It is believed there are negotiations going on for an alliance between France, Italy, and Austria.

The affairs of Italy continue in an embarrassed state. Count Cambray Digny has not yet succeeded in selling the church properties. Baron Rothschild refuses to buy them without at least the tacit consent of the Pope On the occasion of the 20th anniversary of Victor Emmanuel's accession he received numerous congratulations. A conference is likely to take place near Trieste between the Emperor Francis Joseph and the King of Italy. It seems the anti-clerical party of the Chambers at Florence is led by some perverted priests, who propose among other things to pull down the venerable abbey of Monte Casino, in the Kingdom of Naples. The papers state that Mr. Gladstone, before his election as Premier, declared that if such vandalism were attempted he would get up a subscription among his friends to purchase and preserve so venerable a relic of the early ages of civilization,

The Pope continues to enjoy good health, and assisted in person at the Lenten services. His Holiness is making preparations for the coming General Council of the Church.

Count Usedom has been recalled from Florence by Count Bismark, for having failed to discover and give timely notice of the intrigues between France, Italy and Austria. The envoy on taking his leave of Victor Emmanuel received a present of a miniature of His Italian Majesty, set in brilliants. It is understood that the Pope has acceded to the request of the King of Prussia, to send a nuncio to the courtof Berlin, The French Bourbon princes have left Naples. Admiral Lord Clarence Paget arrived there, and intended going on to Rome.

The Emperor of Austria receives enthusiastic ovations in his progress through his dominions: he is now at Trieste. The ex-Duke Robert of Parma is to be married to the sister of Francis II. of Naples.

The Duke of Augustemburg, of Sleswig Holstein, is dead.

The Spanish Constitution, as about to be submitted to the Cortes, wil comprise 130 articles, formed on the basis of a liberal, representative monarchy. The name of the King is not supplied, but he is to have the power of a suspensory veto: the Chambers will comprise Senators and Deputies, the former sitting for twelve, the latter for three years. Each province will name four Senators. There is to be complete separation between church and state, all religions being treated alike. The news from Cuba is rather obscure, but it is thought the recent reinforcements will suffice to stamp out the rebellion. Instead of executing the prisoners they will be sent to Fernando Po.

Affairs in the East are more tranquil. The difficulty between the Sublime Porte and the Shah of Persia is amicably settled. The blockade of Candia has been taken off, to the great joy of all the seaports of the Levant. The Prince and Princess of Wales will visit the works of the Isthmus of Suez, and then embark at Port Said for Athens and Constantinople. The Turkish authorities are making great preparations to receive their Royal Highnesses.

The King of Portugal has conferred the Order of Christ on a wine merchant named Henrique C. Leitte of Buenos Ayres.

Advices from West Indies mention a dreadful massacre of eighty men and women by the rebels of Hayti. Salnave, on beating the rebels and taking the city, learned that three of the ringleaders were concealed in the French Consulate: the Consul refused to deliver them up, whereupon the house was broken into, and the refugees were taken out and shot at the door. The French fleet was coming up to avenge the insult, as well as a previous outrage committed on a boat's crew.

The London Zoological Society acknowledges receipt of an interesting collection of birds from Mr. Hudson of Conchitas, in the Argentine Republic.

Colonel Thompson, of Paraguay, arrived in London: the "Times" has lengthened remarks on the condition of Lopez.

The collection throughout Ireland on St. Patrick's day for the Fenians, realized £271, including 100 guineas from Messrs. Murphy, distillers, Cork, and £25 from the Mayor of the city Mr. O'Sullivan.

The 'Gazette' reports the promotion of Admiral Ramsay, and thinks this station will in future be left in charge of a senior officer.

The winding up of Lord Brougham's affairs shewed that he died poor, having subsisted for some years on his pension of £5,000 a year as ex-Chancellor.

The London money market shews an improvement. Brazilian securities have improved ½, and Argentines fallen ⅜. The importation of United States 5-20 Bonds continues largely for England and Germany, exceeding two millions weekly: and if this goes on it is thought gold must be exported, Argentines, 80; Buenos Ayres, 91; Brazilians, 80½.

The Rio Janeyro City Improvement Company has declared a dividend equal to 5 per cent. per annum.

MAILS FROM NEW YORK.

(Via St. Thomas and Brazil.

We have New York papers to March 23rd. The matter that chiefly occupied public attention was the suspension of the Tenure of Office Bill. This bill was passed to tie the hands of President Johnson, and prevent him from dismissing his Ministers without consent of the Congress. The Senate does not think it expedient yet to repeal the bill, but has notified that it will introduce some modifications in it.

Bliss and Mastermann have petitioned Congress, complaining of the sufferings inflicted on them by Lopez in Paraguay, and also the maltreatment they received, as they say, from Admiral Davis.

From Cuba the news is that the revolution has triumphed, owing to the great assistance in men, money, and war-materiel from the United States. A Republic has been proclaimed, and an envoy sent to Washington to solicit the recognition of the American Government. The revolutionists declare freedom for the slaves, promising to reimburse their owners: they have also begun to emit paper money.

The 'New York Herald' speaks of armed expeditions into Mexico by way of Texas. The condition of Mexico is awful.

LATEST FROM BRAZIL.

The New York mail steamer has brought private letters confirming the rumour of General MacMahon's recall. This is, however, not believed.

An old English merchant died at Pará, named Jas. P. Campbell.

A man named Pigott or Bigott, who represented himself as a Roman Catholic priest, with forged letters from the Bishop of New Orleans, was convicted of the forgery at Pará, and put in prison.

INDUSTRIAL PROSPECTS

For the last few years it has been the custom of River Plate politicians to measure the prosperity of the country by the Custom house returns, and in a land where the only comeatable agricultural statistics to be had, are the lists of taxes and fines paid by the farmers, Possibly the custom house is the surest and best thermometer of our trade, commerce and industry. We accept therefore the returns of the Custom house as the best authority of the day on such matters, and call upon the government to supply the public with monthly returns from this establishment.

Yesterday some of the best informed statisticians of Buenos Ayres made the astounding discovery that the Custom house returns for the first quarter of the current year show a serious falling off; we, of course, with a copy of Russell & Anderson's report in our pocket, were prepared for nothing else. That President Sarmiento has all the blame for this, we suppose to-morrow or next day we shall read in some of the newspapers; any man who speaks English in the Argentine Government House must necessarily have some share in the country's ruin; but things in the Argentine Republic have by no means touched bottom yet; they soon will, if the public mind is not directed in a different course from what it is at present.

A review for the past year of the progress of taxation and expenditure, of the decline of industrial and rural interests would convince the most heedless that when we stated the Argentine Republic had entered on the road to head long ruin, we spoke the truth, the whole truth, and nothing but the truth. The Custom-house returns now come to our support and bear out to the letter our statement.

There is at the moment a settled gloom upon the sheepfarmer and estanciero, which all the schemes of the Executive and the leading articles of our colleagues cannot remove; in the Banda Oriental, things are even worse. Sheep are selling in the district of Paysandú at 2 reales fuertes each, that cost the estanciero a few years ago from 3 to 3½ pesos fuertes each.

Last month one of the finest and best estancias in the Banda Oriental was sold. The land, some seven suertes, which only last year was valued at 16,000 patacons per suerte, with 53,000 sheep, fine mestizas, 500 cows, various tropillas of horses and mares, a fine estancia house and quinta, and over 20 azotea puestos, with corrales, &c., all thrown into the bargain, or given as is termed here for the "yappa." Fifty-three thousand sheep and 500 cows for nothing—! merely conditioned that the buyer would pay 73,000 pats. for 6½ suertes of land which only last year was considered cheap at 104,000 pats. These are facts, President Sarmiento, and facts worth knowing. Every sheepfarmer in Buenos Ayres would sell out to-day could he but get 50 per cent. of the value of his property five years ago—and yet whilst things have been dropping down, down in the camp each successive year, taxes, imposts, and expenses have been going up, up, until the whole country ruined, impoverished, and exhausted, cries "Hold, enough!

Great as is the share which belongs to the Governments in the rural misfortunes of the country, we cannot overlook the fact that the people themselves are also immensely to blame, and as far as we can judge the salvation of the Plate depends more upon the people than the Administration. Let people believe it or not, as they will, but we fearlessly assert that there is a great and serious change coming over this country. The first knell has come from the Custom House; the second will most assuredly come from the Treasury Office, where the brightest genius will fail to make both ends meet. Let us, therefore, take timely warning—the only hope for the country is agriculture.

THE MEETING OF CONGRESS.

The forthcoming session of the Legislature deserves to be considered amongst the most interesting and important ever held. The people of this country, who in raising Mr Sarmiento to power, may be considered to have expressed their desire for a radical change in their system of Government, or rather in the interpreting of that system, are now called on to express through their representatives their opinion of the result up to the present attained by the new Administration. The address of the President on his inauguration in October last is fresh in the minds of the people. The promises he then made, the reforms he then promised, and the views he expressed cannot have been forgotten; and the time has now arrived when his Administration will be for the first time weighed in the balance, and it fairly weighed, and personal and party opposition be excluded from more than their fair share in the operation, we have but slight fear that the assembled representatives of the nation will declare it to have been found wanting.

In his inaugural address there is no passage which at the moment made a deeper impression on his hearers than that in which he, after taking the oath renewed his promise to fulfil the laws and the constitution by worthily exercising the authority conferred on him by his fellow citizens, and adding that "it rectitude of intention and a desire to do good are claims upon the aid of Providence, I dare to hope that the blessings of Heaven will at last visit this part of the earth, so long abandonde to the errors and misfortunes that retard the progress of nations, and their Governments,"

The election of the present Chief Magistrate was opposed in vain by as factious a party as any candidate has ever had to encounter, every project and proposition initiated by the new Government since its installation has equally been the object of attack and adverse criticism by the same party, but moderate men of every shade of opinion must admit, that, although some of their measures may have been open to objection and the results of others have still to be awaited, they each and every one originated in a desire for the true progress of the country, and bear the stamp of "rectitude of intention and a desire to do good."

But we are not about to base the merits of the present Government solely on their good intentions or rectitude of purpose; these qualities are supposed to be essentials to the statesman, it is true, they certainly inspire confidence, but the ruled of the nineteenth century in every quarter of the globe prefer judging their rulers with the assistance of that powerful lens "accomplished facts," and intentions and purposes, be they good or bad, are allowed but little influence in the decision.

We therefore purpose taking a brief glance at what has been up to the present accomplished by the administration of Mr. Sarmiento, with the view of showing how far his programme has advanced towards fulfilment.

"The Constitution, in all countries, admits not of discussion by force of arms," the first opportunity was taken of impressing this truth, which it seemed to have forgotten, on the nation, by settling over the council board instead of sword in hand, the Corrientes difficulty, which at one time threatened to involve the country in civil war, and which in former times would undoubtedly have been left to the arbitrament of the sword.

This valuable precedent was not without its due effect in preventing the subsequent San Juan embroglio from assuming alarming proportions.

That our frontiers can be considered as as yet properly defined or protected we are not prepared to assert; on the contrary much, very much, remains to be done, but with the limited means in the hands of the Government, and the scarcity of troops, caused by the demands of the army in Paraguay, we think it has advanced considerably towards the solution of this vital question, and there can be no question that in many frontier districts where the savages formerly had full play, they find it more than difficult to carry out their periodical raids.

The corruption that had eaten into the very heart of our institutions was one of the most menacing difficulties in the path of the Government. A heavy, long and strong sweep of the new broom disposed of many disgraceful abuses shortly after the inauguration of the President, but we cannot shut our eyes to the fact that many still exist, notably in country districts, and we can only hope, and indeed we have confidence that in time they will be rigourously and effectually dealt with.

The founding and endowing of a number of colleges and schools throughout the Republic must be looked upon as amongst those measures of the most vital importance to the country. Educate a people and they will certainly be free in the proper acceptation of the term, and with true freedom comes individual happiness and material prosperity.

The instituting of the preliminaries for an Exhibition in Cordoba also deserves commendation, but the most important of all the measures as yet undertaken by the present Government are the establishing of telegraph lines across and throughout the Republic, and the construction of a port for the city of Buenos Ayres. The importance of these last mentioned projects has been duly dwelt on in our columns and in those of our contemporaries, so there can be no need to recapitulate their advantages; they will when carried out tend more to the civilisation and progress of this Republic than any project that has seen the light since the Spaniards turned their back on these shores.

If we seek for a proof that the measures we have enumerated are worthy of commendation and tend towards the advancement of the nation, we have it in another direction towards which the attention of the Government has been turned, viz., the raising of the National credit abroad.

This is the true acid by which to test the metal. We may have a very fair, nay more than fair, opinion of our standing and position amongst our neighbors, but if we wish to borrow money, and our friend and neighbor looks doubtfully on the securities we offer, finally buttoning up his pocket, it requires a more than ordinary amount of self appreciation to keep us erect on the pleasant elevation to which we had raised ourselves. Such is not now the condition of this country: her credit is good, and is improving in that market where, if she stand well, she may laugh at all others, lenders or borrowers. Argentine securities have improved sensibly in London since the new Government came into office. Why is this? We say it is because those who are best capable of judging think that the internal affairs of the country are in good hands, and such is becoming apparent The foreigner's, and particularly the money lending foreigner's opinion of our progress is of far more value to us than any amount of self demonstration of the fact, for money lenders always look first and foremost to the state of the borrower's private affairs.

It now remains to be seen whether the assembled wisdom of the nation is equally conscious of our advancement, whether those measures we have glanced at as conducive in a degree to the country's weal, will receive at their hands the calm and deliberate consideration they merit, or the clamoring opposition dictated by the interests of party; we can only hope that those on whom the onerous and honorable duty devolves of representing in the Legislature the desires, interests, and happiness of their fellow citizens, may whether they feel obliged to oppose or approve, always remember the sacredness of their trust, and that generations unborn are those who will most be affected by the way in which they discharge it. XX

MONTEVIDEO.

Wednesday.

The French mail steamer came in sight yesterday at 5.30 p.m. and entered port two hours later, but the health boat would not visit her, and we were kept without the news from Europe till to-day.

Mauá's project is not yet before the Chambers, and it is thought the deputies are timid about prolonging the Curso Forzoso as proposed.

The 'Siglo' publishes the subscribers to the proposed Bank. The largest are Jackson 70,000$, Cibils 60,000 Fynn, Zoa Fernandez and a score others for sums varying from 15,000 to 25,000$. The largest foreign subscriber is the house of Proudfoot Hall & Co. for 20,000.

The Chambers continue occupied with military pensions.

THE SEAT OF WAR.

Luque.

There has lately not even a scout of the allied army been seen the other side of Luque, so that as far as news, of Lopez is concerned, unless we invent it, we are not likely to have any for days to come.

A Brazilian taken prisoner at Matto Grosso is the last who has brought us the usual tale of horrors.

Some days ago Lopez called together all the families in his camp; they number in all ten thousand persons, six thousand being women. In a short address he told them that it was impossible to support them any longer, as all his resources should now be concentrated to the left of the army, and consequently those who wished were at liberty to return to the capital. A number of families prepared to avail themselves of the permission, but when they were about setting out, Lopez suddenly appeared, and telling them that he had hoped there were no traitors in his camp, but that he now found there were, he had them all sent to prison. In the morning several newly made graves marked the spot where about 20 persons, old and young, had been buried. They were executed during the night by lance thrusts in order to avoid making noise by shooting them.

A few prisoners have been brought down from Rosario.

Twenty miles above Corrientes is the confluence of the Paraná and Paraguay; the first town after passing this place is Humaitá, already described in the 'Tribuna' last November.—All its fine batteries are now in ruins.

There is nothing new since the arrival of Comte d'Eu, who is a general favourite from his courtesy and elegant manners.

Every day the different armies are put through field manœuvres. The Argentine battalions are greatly reduced, many of them to 150 rank and file, the largest only numbering 250—the officers too are also too few even for the daily routine duty.

The advance of the army has not tended to increase its comfort; in our former quarters we had every convenience: here we have none, not even clean water; nevertheless the general health of the army is excellent and the weather is pleasant.

Sr. Campos is said to be coming up with the arrears of pay due to the army, certainly good news for all.—'Tribuna.'

Asuncion, April 22, 1869.

Messrs. Editors:

Just after closing my letter dated 14th inst., per Goya, the salute of twenty-one guns boomed through the air, announcing the arrival of the Comte d'Eu. Immediately afterwards a division of cavalry, of about 200 rushed down to the port to meet him; they, however, made a mistake by going to the arsenal awaiting his 'Serene Highness' as he landed near the Palace, where there was no one but forty or fifty Italian boatmen to welcome him on his landing. He walked two squares, when a Brazilian rode up and gave him a horse; he proceeded to the Cathedral, and afterwards to the house of the late Minister Barios, where General Guillermo lived previously. I am told he went off to his ship at night and slept on board.

Next day he was visited by every one of the notabilities of the place, French and Italian Consuls, Colonel Aguero, the Argentine Captain of the Port, with an escort of Argentine officers, Captain Parsons of H.M. gunboat Beacon. Every one appeared charmed with the Count, and the free and easy manner in which he received them.

The next day he proceeded to Luque, accompanied by his staff and the Oriental General Castro, who seemed to be quite free and familiar with him. On his arrival at the Brazilian Headquarters the troops were reviewed, and everything went off first-rate. It was rumored that he had brought two million dollars to pay the nine months in arrears due to the army. I have since heard that the amount is only £25,000

Yesterday morning 14,000 hides were sold by public sale; Mr. Carasal Bravo's Gerente bought them at 25½ reales Bolivian each, al barrer. A few of my friends who attended the sale expressed themselves dissatisfied, but it was no use; some venture to say that everything was not 'above board' these hides were unclaimed, for the want of proper documents to prove their ownership.

We have now a first class hotel called Hotel de Paris, a two-story house, very large, and belonging to the Haedo family, situated at corner of Calle Atajo. Everything is laid out in good style, costing 1,000 ounces to put it up, the proprietor, Juan Bergeire formerly of the Hotel de Comercio at Corrientes is quite up to his business, lots of Chaff and good fun in him having a staff of six good looking waiters, there are two new French billiard tables, and at night, one meets 50 or 60 of the 'Comerciantes' of Asuncion, some playing at Monte, and others at 31.

My friend from the Argentine Headquarters stationed to the right of Luque, informs me that yesterday morning they got a 'pasado' from Lopez's camp, he is half mad and nothing can be got out of him, the fellow knows nothing about the families.

A skirmish took place yesterday between the Brazilian advance guard and Lopez's scouts' the latter lost seven horses saddled, escaping by swimming across the lake.

The bridge over the Yugueri river is not yet finished, by the Brazilians, it is the only thing which keeps the Argentines from marching, Comte, D'Eu having given them as a mark of distinction and his confidence of the bravery of the troops the advance guard to the right; General Vedia says, "they will probably in two or three days march two leagues further interior."

I must close my letter in great haste.

Yours truly,
JERSEY.

HONOLULU.

Honolulu, capital of the Sandwich Islands, on the island of Oahu, lat. 21° 18′ 12″ N., long. 157° 55′ W.; population about 10,000, and during the fall and winter season sometimes swelled to 12,000 or more by the influx of seamen and residents of other parts of the island. It possesses 6 churches, numerous schools for native and foreign children, a college, a medical school, and three weekly and two monthly journals in both the Hawaiian and English languages. Honolulu harbor, situate on the leeward side of the island of Oahu, was discovered in 1794 by Captain Brown, of the English ship Butterworth, who, together with Captain Gardner, of the Prince Le Boo, was murdered by the natives. The harbor is a deep basin in a coral reef, against which the swell of the sea breaks. The depth of water varies from 4 to 6½ fathoms. In 1858 the town possessed 4 ship chandlery stores, 20 importing houses, 50 to 60 retail stores, 12 hotels, 9 or 10 physicians, and 5 printing offices. The value of imports at Honolulu in 1857 was about $1,100,000, about half from the United States, and the bulk of the rest from Great Britain; and of the exports $600,000, about $250,000 of which consisted of whale oil, sperm oil, and whale bone, and the rest of foreign goods re-exported and of $175,000 worth of domestic produce furnished as supplies to whalers and merchantmen. The Custom-house receipts in 1857 were $131,403 16; the number of American whaling vessels was 128, French 8, other nations 8—total, 144; the number of national vessels was 12. In the six months ending June, 1858, 82 American vessels entered and cleared at Honolulu, with inward cargoes valued at $200,000, and outward cargoes at $400,000; in the preceding 6 months 125 vessels, outward cargoes 500,000, inward $1,300,000. Honolulu is an important station of American missionaries, the seat of a Roman Catholic vicar, and the residence of the Queen and her government, and of the foreign consuls. It is a rapidly improving place.

EDITOR'S TABLE.

The Anuni French mail steamer arrived in port yesterday morning early, and her mails were delivered in the afternoon. The Saturno arrived from the Uruguay, the Rio de la Plata from Montevideo, and the Porteña from Asuncion; in their respective columns will be found summaries of the news from each quarter.

We have received many communications in approving reference to the remarks we lately felt bound to make on the pastoral and agricultural prospects of this country. We are glad that we have succeeded in awakening interest on a subject of such vital importance. We take the following extract from a letter received by a merchant in this city, from an experienced industrial economist, whose views upon sheepfarming we consider well worth the attention of estancieros:—"You touch on the rock on which sheepfarming, if it does not alter its course, will be wrecked, viz.: 'that the most enterprising men hesitate to put another dollar into it.' Now the only thing to bring sheepfarming up is to employ more capital in it; failing to do this it must sink lower and lower. It is a self evident proposition that the yield of wool and the carcass products must be augmented, or the business cannot improve. A small yield of an inferior article cannot compete with a much larger yield of a superior quality produced elsewhere. Dipping for scab, adopting a rational system of breeding, and using good sized, healthy, and well wooled rams, are the only means to bring up the sheep industry, and for this more dollars must be put into it.

We are creditably informed that the Honorable William Stewart, British Minister, has taken on lease the well known Estancia de Torres, near Merlo, with the view of spending the season in the country.

We understand that all the iron work intended for the new screw pile pier at Concepcion was last week shipped for its destination at Montevideo. This work is one of the greatest utility and importance, and the structure will, when finished, be of the most durable and complete kind.

The approaching visit of the Bishop of Honolulu, exciting as it does much religious interest (not to say enthusiasm) amongst our fellow countrymen here, induces us to publish in another column some particulars of that distant capital.

Gen. D. Emilio Mitre in a despatch to the Minister of War has expressed himself strongly in approbation of the course pursued by Government throughout the Loncague affair. We have already expressed our opinion on this subject.

The rumored differences in the National Cabinet have been officially contradicted.

We call the attention of those in search of employment, particularly that of "A smart young fellow" who advertises in our columns for work wherewith to employ his leisure hours, to the fact that very high wages (from 20 to 30 dollars a day) are, we are informed, being paid at present by the Flores road contractors for any and every kind of labor connected with the work; this is a very tolerable rate of remuneration for stonebreaking, and able bodied labourers should at once apply.

We advise our travelling friends that the time table of the Western railway (though probably it will not be published) changes completely on the 1st of May. The last train will on and after that date leave the Parque terminus at 4.30 p.m. Would it not

be as well to close the railway during the winter months?

There has been another attempt at mutiny by a Santa Fé regiment which was about being sent to the Northern frontier of that province for its protection. While on the march under Col Nelson's command, a corporal named Lopez gave the signal by a musket shot, the greater number of the men at once revolting. Col. Nelson with a few faithful soldiers secured the ammunition carts, and then turned on the mutineers, driving them into a neighbouring river, where many of them were drowned, the others were taken prisoners, with the exception of a few who escaped.

The montonero Guayama according to private accounts from Rioja, has surrendered together with all his men, to the Provincial authorities.

We, together with most of our colleagues, had somewhat anticipated in announcing that the benefit to be given to Mons. D'Hote would take place on to-morrow evening. We are advised however by a member of the Cammission that arrangements are in full progress, and that the day fixed upon is Saturday, the 8th prox. The following is a list of the gentlemen that form the Comission:—

A very scandalous fraud has just been discovered by the police, the perpetrators of which have enjoyed for a length of time perfect impunity. It appears that, for a considerable time past Municipal patents and brands have been sold at various shops through out the city, which now turn out to have been forged. The audacity required for this kind of swindling is great, from the certainty existing of ultimate detection. As yet, we understand, none of the implicated parties have been arrested, and some of them are in positions that make their participation in such acts the more extraordinary. We trust the police will not allow this to influence them in the slightest degree in dealing with this case.

The following are the next Liverpool steamers expected, and the dates on which they left England:—

	Left Eng.	Due here
Tycho Brahe	April 2,	May 5.
La Place	,, 10,	,, 16.
Pascal (new ship,)	,, 20,	,, 19.
Flamsteed	,, 30,	June 2.

We hear that we are to have velocipede races during the May festivals. Judging from the specimens of 'velocipedation' we have occasionally seen in the Plaza Victoria, we would suggest that they should be on the same principle as donkey races in England, viz, that the last in wins the race.

The latest published decrees of the National Government possess no particular interest for foreigners, with the exception of that confirming the report of the National Attorney-General on the case raised by the Italian Consul, that the consent of the Consuls is necessary for rendering valid the sale of a foreign ship in this port. The National adviser's report lays down that such is not the case, the only obligation being to register the sale at the Consulate.

We received to-day through the kindness of author, "Antecedentes del primer censo de poblacion de la Nacion Argentina." We have as yet only had time to glance at the work, which appears most minutely drawn up, but hope to have the pleasure of referring to it more in detail on a future occasion.

We called attention to the practice of "nursing" and running races lately instituted by the Once omnibus drivers; Nothing has apparently been done to put a stop to this dangerous practice, for we observe it is at present in full swing. Some lives will certainly be lost if the police do not promptly interfere.

The Provincial Government have just received from Europe the medals struck in commemoration of the inauguration of waterworks, They are well executed.

The members of the Progreso Club have not yet decided as to whether they will build a new Club house or not, a committee composed of Messrs. Azcuenaga, Carranza, and Aracena have been named to examine and report on the subject.

A batch of 9 unfortunate Correntinos reached Corrientes last Friday from Brazil where they have been detained for the last three years, they fell into the hands of the Brazilians at the commencement of the war and have only now returned to their native land.

The following steamers leave this port to-day:—

For San Pedro and Ports, the Tala, at 10 a.m., from Retiro Station.

For Rosario and Ports, from Retiro Station, the Solis: fares reduced, tram way fare free.

For Gualeguay direct, with passengers and cargo, the Rio Gualeguay, from the Mole-head at 10 a.m.

LONDON MONEY AND PRODUCE MARKET,

London 24

The bank rate rules at the same figure. Argentine six per cent. Bonds are quoted at 79¾ to 79⅝; Brazilian five per cents., 1865, at 79¾ to 80¼; ditto, Four-and-half per cents., 1852 and 1858, 73 to 75; ditto, Four-and-a-half per cents, 1860 and 1863, 70 to 72. Buenos Ayres six per cents., 89 to 91.

The bills have been returned of Messrs. Heatley, Cowan and Co, South American, merchants, of Great St. Helens's, Their liabilities are estimated at upwards of £100,000, and it is thought that the realisation of the assets will prove unfavourable. The house is old-established, but has been gradually declining for some years past. It has been connected with firms which have recently failed at Glasgow and Manchester.

Hides—Market presents no notable change during the past fortnight.

Tallow—The market is quiet. A large supply of sorts, the greater part being Australian, was brought forward on Friday in public sale, and met only a moderate demand at 6d decline for best mutton, which was not in request, and at previous rates for most descriptions: and of 1,832 casks offered, 897 casks found buyers. South American was only in limited request, and of 237 casks 40 casks (boxes) rather dark sold at 42s.

Wool—The following, on the wool trade, is from the Circular of Mr. Helmuth Schwartze, dated the 18th inst.: "There is no noteworthy change in the market, which, if anything, is more depressed than a week ago. Without any apparent cause, prices have from the beginning slowly but continuously declined, until they now find themselves almost below the level of the most depressed period of last year. Nor is this confined to such wools as are produced in overwhelming masses, the fall being likewise—and very sensibly—felt by the finest sorts, of which the production is by no means excessive. Nothing but the dread of the 40,000 bales to be offered in the two summer series can explain this strange weakness of the market at a period when from all the attending circumstances it should be, and generally is, comparatively strongest. The sales will close on the 24th instant, and be followed on the 25th by the auctions of low wools."

BRAZILIAN LOAN OF 1839.

Messrs. Rothschild, the financia agents of the Brazilian Government have given notice that they are prepared to discharge at par the balance of the five per cent loan, which, thanks to the previous operation of its sinking fund, only amounts to £277,900. In its discharge the English public have further proof, if indeed any such were needed, of the unerring fidelity of Brazil under the most adverse circumstances to its pecuniary engagements in London. Yet, notwithstanding the holders of those remaining bonds are receiving their money at par, the 5 per cent. loan of 1865 is still at 20 per cent discount, although in the half-yearly drawings for the sinking fund the bonds so drawn are also paid off at £100.

THE BUENOS AYRES GREAT SOUTHERN RAILWAY.

With reference to this improving property we have received the following letter of enquiry:—

"Sir,

"There have been several letters in your paper recommending the Buenos Ayres Great Southern Railway as an investment. I have no doubt it would be a very desirable property—provided always that it is well managed—if it were upon the English system. I take it, however, that, like all other foreign railways, it lapses after a time to the Government; so that an investor would have to put by a sum of money every year out of his dividends in order to prevent an ultimate total loss of capital.

"I am, &c., R."

The writer is in no wise correct as to the Buenos Ayres Great Southern becoming the property of the Government by the effluxion of time. The only means by which the Government have ever had the power of becoming the owners of the line has been by the payment to the company of a premium of twenty per cent on the capital invested. Even this remote chance of their becoming the possessors of the property has recently been given up, and the railway is now as thoroughly the 'bona fide' property of the shareholders as is any line in England of its proprietary. Nor have the Government, indeed, any power of interference, except on the one point of the line paying a greater dividend than 15 per cent per annum. When such an event happens, the Government have the right of asking that the tariffs of the company shall be, to some extent, reduced; but such reduction is not to bring the dividend to a lower dividend than than 15 per cent. The policy of the company is directed by the board in London; the executive in Buenos Ayres is entirely British; and the published statements and returns show that the line is worked as efficiently and economically—if not more so—as any other line in the world similarly situated.

Ounces,	400

National Bonds	55⅞

The market ruled firm to-day and closed with an upward tendency. The Bulls still find it their interest to borrow money on these securities at high rates, and until they are obliged to realize, it is thought probable that no great fall can occur, though outsiders sell freely for cash; the bonds are taken up by the speculators, and it is possible that they may be able to sustain prices for a considerable period. Much however depends upon the result of to-morrow's liquidation, and if a proportion of the sales turn out to be of a bona fide nature it is thought likely that the Bulls will not be able to keep up the present quotations.

Exchange has fallen off considerably; the English Bank refuses to draw at 49, and for private bills there are numerous takers at 49¼. Should the rate go much lower, specie will begin to be shipped, which will soon tell upon the money market. An error occurred in our money article of yesterday; gold in Montevideo was quoted at 5 premium instead of 9¼. No change in the price has been telegraphed to-day

BRONCHITIS, LOSS OF THE VOICE.—Change of climate will not cure bronchitis, or restore the lost voice, but Lanman and Kemp's Pure Cod-Liver Oil will. The Rev. Heber Rapelye, of Milwaukee, now in Buenos Ayres, whither he went in the hope that tropical air would relieve the chronic sore throat, under which he labored, writes as follows: "the change did me no good, but here (at Buenos Ayres) I procured some of Lanman and Kemp's Cod-Liver Oil, and after taking it for two months, I find myself, I may say, well. My voice is nearly as strong as ever, and I am confident of a perfect cure. Under Providence, I unquestionably owe this result to Lanman and Kemp's excellent preparation. Other cod-liver oils may be efficacious; but this I know to be so, in the highest degree, and therefore recommend it." Rev. N. W. Simonds, of St. Louis, and Rev. John Handford Jones, of Bangor, Me., have recently published [without solicitation] statements to the same effect. Avoid the ordinary cod-liver oils. They are adulterated. This pure specific keeps in all latitudes, and may be procured from the leading druggists.

NATIONAL EXHIBITION
AT
CORDOBA,
(ARGENTINE REPUBLIC.)

The National Commissioners of the Exhibition to take place in the City of Cordoba (Argentine Republic), have the honour to invite constructors of every kind of Machinery appropriate for rural industries and agricultural and mining purposes, &c., to exhibit their handiwork in said Exhibition.

Space will be allotted for said Machinery, free of any charge, by the Commissioners, on application, and every facility, not interfering with the established order and good administration, will be likewise offered.

For the information of those persons who may be desirous of exhibiting their Products or Manufactures, the following articles, taken from the General Instructions issued, are herewith transcribed:

ARTICLE 3d.

Exhibitors are specially recommended to send to the Board of Directors, before the 1st of September, 1869, a detailed list of all the products which they purpose exhibiting, and state the space more or less which the e may occupy in metres or square yards.

ARTICLE 5th.

It will be convenient for exhibitioners of Machinery, as far as may be in their power, to determine their motive power, the average price, their approximate cost of conveyance to Buenos Ayres or Rosario, with any other detail which it may be convenient to know for the furthering of the industry to which they are to be applied.

ARTICLE 7th.

All the articles must be despatched, addressed to the National Commissioners of the Exhibition or to the Provincial Commissioners in Rosario, in which case the latter will have instructions to receive them. These articles must arrive in the City of Cordoba on or before the 1st of FEBRUARY, 1870, the opening of the Exhibition being fixed for the 17th of APRIL of the same year.

The Offices of the National Commissioners of the Exhibition are at No, 151 Calle Peru, Buenos Ayres.

For further particulars Exhibitors are requested to apply directly to the Commissioners, or to any of the Argentine Consuls abroad.

NATIONAL COMMISSIONERS:

President:
EDUARDO OLIVERA.
Vice-President:
BERNARDO DE YRIGOYEN.

A. A. CONSTANTINE'S
PERSIAN HEALING
OR
PINE TAR SOAP.

For the Toilet this Soap has no equal. It preserves the complexion fair, the skin soft, flexible, and healthy.

It removes all Dandruff, preserves the hair soft and silky, and prevents it from falling off or prematurely turning grey.

It cures pimples on the face, cracked or chapped hands, salt rheum, frosted feet, burns, fresh cuts or wounds of all kinds, all diseases of the scalp and skin, and is a good Shaving Soap.

WHAT THOSE SAY WHO USE IT.

It has cured pimples on the face and neck, itch, salt rheum, sunburn, chapped hands and indolent ulcers; and those knowing the medical ingredients, will say it is the best medicated soap in the market.

WILLIAM WYNN.
Chemist and Druggist, 150 Fulton Avenue, Brooklyn Avenue, New York.

Baldness Cured—I can recommend your Persian Healing Soap for Baldness; it is bringing my hair on beautifully. I consider it the best hair renovator in use.

M. H COMBS,
218 Atlantic-street, Brooklyn, New York.

I recommended it to a friend who had a very annoying annual eruption on the skin; he used it a short time and was cured. I have recommended it to others who have used it, and always with success. From actual knowledge, I consider it a great curative in cutaneous affections. I don't know what its ingredients are, but I know it cures any skin affections. I have used it for catarrh in the head, making a suds and sniffing it through the nose, and it has cured me. I use it constantly for the toilet, and consider it the best soap for that purpose I always recommend it, and am happy to do anything to bring it into notice.

R. G. BENSON,
Office of the United States Life Ins. Co., 40 Wall-street, New York.

I have used your Persian Healing Soap in my practice extensively, and it has proved the best healing soap I ever used. It has no equal as a soap for washing the heads and skin of children.

L. P. ALDRICH, M.D., 19 Harrison-street, New York.

The Rev. J. M. Adams, Pastor of the M.E Church, Bloomfield, N J., writes:—Of the Persian Healing Soap I can speak with confidence and in high eulogy. It has a charm. It heals with unusual rapidity. I don't want to be without it, &c.
